BUTCHERS' ASSOCIATION—The butchers of the city are, we understand, taking steps for the formation of an association similar to those of other cities, having for its purpose the protection of the interests of buyers, sellers and the public generally. It is proposed to establish a yard for the reception and sale of cattle, sheep and swine on foot, as at Brighton, Cincinnati; or as in New York, Philadelphia, and elsewhere. Now there is no common locality of the sort, and drovers take matters at hap hazard, and butchers are compelled to scour the country for supplies. In many instances, we learn, cattle designed for other markets would have been offered here had there been facilities for bringing water and beef in contact without delay. We think that farmers and drovers, as well as butchers, can see at once the advantages accruing to all parties from a realization of the proposed plan. The locality of the yard has already been designated, and the organization of the association will doubtless be speedily effected.
